PROFESSIONAL EXPERIENCE

Feb 2018-Present

Impressions Design + Marketing
2650 Washburn Way • Klamath Falls, OR • 541.887.2211

Entrepreneur

Together with business partner run successful full-service design agency and apparel production company.

Key Achievements

- ♦ Develop and install apparel production line.
- ♦ Grow company from at-home office to 3000 sq. ft. facility that employs eight people.
- ♦ Supervise creation of 60 websites, manage hosting thereof.
- ♦ Manage all contracts.

June 2012 – Feb 2018

JELD-WEN Engineering/Research and Development
3737 Lakeport Blvd. • Klamath Falls, OR • 541.882.3451

Engineering Manager/CAD Manager

Based on specifications set forth by product development department and with collaboration of production management; engineer, design, and draft original equipment for the fenestration industry. Manage projects and human resources for new fenestration factory and product lines valued at up to \$20 million. Write procedures, machine manuals, and point of use instructions. Research and development of new products.

Key Achievements

- ♦ Pioneered the use of servo driven actuators (in lieu of air cylinders) to increase tooling repeatability and precision, as well as automation potential, of equipment.
- ♦ Self-taught ladder logic programmer - I attained such a high level of proficiency that I was given the responsibility of training the new electrical engineers in PLC programming.
- ♦ Developed into resident expert in Autodesk software and a go-to for CAD help and troubleshooting for JELD-WEN Engineering. I was promoted to the position of Global CAD manager in July 2015 and was responsible for creating and troubleshooting software deployments/infrastructure and overseeing the licensing of all Autodesk software.
- ♦ Go-to for computer related troubleshooting for entire engineering department.
- ♦ 2 patents
